## GMHA Continues Joint Revitalization Efforts With GovGuam Partners; Expansion to Community Volunteers Ahead

**(Sunday, November 2, 2025; Tamuning, Guam)** The Guam Memorial Hospital Authority (GMHA) continued its revitalization efforts this weekend, marking the second week of coordinated cleanup and enhancement activities in partnership with GovGuam agencies.

Teams from the Guam Visitors Bureau (GVB), Guam Fire Department (GFD), and Guam Police Department (GPD) worked alongside GMHA's Facilities Maintenance team to continue beautification and cleanup efforts across the hospital campus. Activities included refreshment of the Emergency Room parking area, interior courtyard, and surrounding parking lots. GMHA's Environmental Services team also advanced interior improvements by addressing public areas on the second floor.

"This is a true demonstration of what it means to work together in partnership to take care of our hospital," stated Dr. Joleen M. Aguon, GMHA Interim CEO and Administrator. "*Si yu'os ma'åse'* to all our partners for standing with us as we invest time and effort into strengthening our facilities for our patients, our mission, and our island. We are also preparing to expand this volunteer initiative beyond government partners in the coming weeks, welcoming support from community groups and private-sector partners who share our commitment to improving Guam's only public hospital."

Since the revitalization initiative launched, the Department of Public Works and the Office of the Mayor of Piti have also supported efforts by assisting with debris and waste removal.

"As we move towards a new hospital, revitalizing our current facilities is important," said Governor Lou Leon Guerrero. "This collaboration reflects our shared commitment to ensuring our people receive the care they deserve."

Lieutenant Governor Josh Tenorio added, "We're one family, and we all benefit from this hospital cleanup. Our patients, our staff, and our whole island community will see the positive impact of this ongoing effort."

GMHA expresses its appreciation to all participating GovGuam partners and looks forward to expanding community involvement as the revitalization effort continues.
