Volunteers, known affectionately as the “pink ladies,” play an important role in supporting the hospital, its patients, families, and staff.

GMH Volunteers Association President Terese Calvo emphasized the impact of volunteer service on patient care. “Our volunteers are here because they care deeply about our hospital and the people it serves,” Calvo said. “Whether they are greeting visitors, supporting patients, or helping with fundraising efforts, every volunteer makes a meaningful difference.”

Governor Lou Leon Guerrero recognized the volunteers’ contribution to the community. “The GMH Volunteers Association embodies the spirit of service that defines our island,” she said. “Their kindness and dedication make a meaningful difference for patients and families during vulnerable moments.”

Lieutenant Governor Josh Tenorio added, “The presence of volunteers brings reassurance and connection into the hospital. Their commitment supports healthcare teams and reminds patients that the community is with them every step of the way.”

Those interested in volunteering as part of the GMH Volunteers Association may apply at the hospital gift shop.

GMHA congratulates the newly installed officers and expresses appreciation to all members of the GMH Volunteers Association for their continued service and dedication to patient-centered care for Guam.
